This order confirmation is subject to the sale and delivery of the ordered items being admissible under applicable export control laws. Items (hardware, software, technology) could be subject to export license requirements and thus resale/re-export might require an export licence issued by the competent export control authorities.
The relevant export control classification information (according to EU/US/national law) is provided for each line item. Even if a line item is not classified (line items labelled "Not listed") an export license issued by the competent authority might be required due to the final destination and end-use of the items.
It is your responsibility to obtain all export licenses, including intra EU movement licenses in case such a license is required and to inform HBK thereof.
