0020	<p>Customer Material No.: HYD-M00448                      Gleason Material No.: 28365810                      POWER CLAMPING CYLINDER HPL160/20                      Repair in our plant in Ludwigsburg.</p> <p>The overhaul includes the following hardware:</p> <p>2x 26157750 - LOCK VALVE                      1x 28277730 - SEALING                      1x 26147060 - SCRAPER</p> <p>Services during the repair:</p> <ul style="list-style-type: none"> <li>- disassembly of unit</li> <li>- visual inspection</li> <li>- complete cleaning</li> <li>- change of wear and spare parts</li> <li>- reassembly and test</li> <li>- preparation for dispatch</li> </ul> <p>For pre-manufacturing of the required parts we require approx. 12 weeks. With immediate repair approval material procurement within 2-3 weeks is possible - subject to prior sales.</p> <p>Period of repair: approx. 2 weeks after all material is available.</p> <p>The pre-manufacturing of the needed parts as well as the period of repair starts immediately from receipt of your official purchase order or written release only.</p> <p>The standardized scope does not include the exchange or repair of electrical or electronical components. This will only be executed on explicit customer request.</p> <p>Any old parts replaced during the repair / overhaul of the assembly, will immediately be scrapped at the time of return of the assembly. At your explicit request, we will arrange to return deliver the old parts back to you, provided you send us such request in writing prior completion of the repair / overhaul work.                      In the absence of such request, we assume your approval to the disposal / scrapping of the old parts.</p>	1	1
